Living the Science of Mind Ernest Holmes

The Only Writings by the Founder of SCIENCE OF MIND to Help You Understand His Classic Textbook

This is Holmes' own "commentary" on his masterpiece, The Science of Mind. As such, it may be his most important book besides the textbook. These short pieces abound in counsel and guidance in metaphysics, spirituality, and healing. Here too is the history of New Thought and Religious Science; insights into the mystics; pointers on treatment; and analysis of our fears and insecurities.

Founder of the worldwide Religious Science movement, formulator of the Science of Mind philosophy, and author of metaphysical bestsellers, Dr. Holmes continually sought to simplify his teaching and get people to "use" it. In these pages he speaks directly to you in a one-on-one tutorial.
