Women & Transition introduces women to a new way of thinking about the events that shape their adult lives - like marriage or job loss or empty nests - and offers a step-by-step toolkit specifically designed to help women navigate transition successfully. In a recent study, ninety percent of women stated that they 'expect to transition' within the next five years. The book helps women increase their awareness of transition and understand it as positive and optimistic, a substantial departure from the negative characteristics typically ascribed to it.
