Industrial Image Processing: Visual Quality Control in Manufacturing

Christian Demant, Bernd Streicher-Abel, Carsten Garnica

Industrial Image Processing: Visual Quality Control in Manufacturing Christian Demant, Bernd Streicher-Abel, Carsten Garnica

This practical introduction focuses on how to design integrated solutions for industrial vision tasks from individual algorithms. The book is now available in a revised second edition that takes into account the current technological developments, including camera technology and color imaging processing. It gives a hands-on guide for setting up automated visual inspection systems using real-world examples and the NeuroCheck® standard software that has proven industrial strength integrated in thousands of applications in real-world production lines. Based on many years of experience in industry, the authors explain all the essential details encountered in the creation of vision system installations. With example material and a demo version of the software found on "extras.springer.com" readers can work their way through the described inspection tasks and carry out their own experiments.
