Georg F. Striedter, John C. Avise, Francisco J. Ayala, National Academy of Sciences

In the Light of Evolution: Volume VI: Brain and Behavior Georg F. Striedter, John C. Avise, Francisco J. Ayala, National Academy of Sciences

The central goal of the *In the Light of Evolution* (ILE) series is to promote the evolutionary sciences through state-of-the-art colloquia--in the series of Arthur M. Sackler colloquia sponsored by the National Academy of Sciences--and their published proceedings. Each installment explores evolutionary perspectives on a particular biological topic that is scientifically intriguing but also has special relevance to contemporary societal issues or challenges.

This book is the outgrowth of the Arthur M. Sackler Colloquium "Brain and Behavior," which was sponsored by the National Academy of Sciences on January 20-21, 2012, at the Academy's Arnold and Mabel Beckman Center in Irvine, CA. It is the sixth in a series of Colloquia under the general title "In the Light of Evolution." Specifically, *In Light of Evolution: Brain and Behavior* focuses on the field of evolutionary neuroscience that now includes a vast array of different approaches, data types, and species.

This volume is also available for purchase with the *In the Light of Evolution* six-volume set.
