The Technology of Binaural Listening (Modern Acoustics and Signal Processing)

The Technology of Binaural Listening (Modern Acoustics and Signal Processing)

This book reports on the application of advanced models of the human binaural hearing system in modern technology, among others, in the following areas: binaural analysis of aural scenes, binaural de-reverberation, binaural quality assessment of audio channels, loudspeakers and performance spaces, binaural perceptual coding, binaural processing in hearing aids and cochlea implants, binaural systems in robots, binaural/tactile human-machine interfaces, speech-intelligibility prediction in rooms and/or multi-speaker scenarios. An introduction to binaural modeling and an outlook to the future are provided. Further, the book features a MATLAB toolbox to enable readers to construct their own dedicated binaural models on demand.

From reader reviews:

Benjamin French:

What do you think about book? It is just for students since they are still students or it for all people in the world, exactly what the best subject for that? Just you can be answered for that query above. Every person has diverse personality and hobby for every single other. Don't to be obligated someone or something that they don't need do that. You must know how great along with important the book The Technology of Binaural Listening (Modern Acoustics and Signal Processing). All type of book would you see on many sources. You can look for the internet options or other social media.

Shannon Bland:

This The Technology of Binaural Listening (Modern Acoustics and Signal Processing) book is absolutely not ordinary book, you have it then the world is in your hands. The benefit you will get by reading this book is usually information inside this reserve incredible fresh, you will get data which is getting deeper you read a lot of information you will get. This The Technology of Binaural Listening (Modern Acoustics and Signal Processing) without we realize teach the one who reading it become critical in considering and analyzing. Don't possibly be worry The Technology of Binaural Listening (Modern Acoustics and Signal Processing) can bring any time you are and not make your carrier space or bookshelves' grow to be full because you can have it with your lovely laptop even mobile phone. This The Technology of Binaural Listening (Modern Acoustics and Signal Processing) having good arrangement in word and also layout, so you will not sense uninterested in reading.

Olivia Clinard:

Spent a free time to be fun activity to try and do! A lot of people spent their free time with their family, or their own friends. Usually they undertaking activity like watching television, about to beach, or picnic inside the park. They actually doing same every week. Do you feel it?
