Mara Tanelli, Matteo Corno, Sergio Saveresi

**Modelling, Simulation and Control of Two-Wheeled Vehicles (Automotive Series)** Mara Tanelli, Matteo Corno, Sergio Saveresi

## Enhanced e-book includes videos

Many books have been written on modelling, simulation and control of four-wheeled vehicles (cars, in particular). However, due to the very specific and different dynamics of two-wheeled vehicles, it is very difficult to reuse previous knowledge gained on cars for two-wheeled vehicles.

*Modelling, Simulation and Control of Two-Wheeled Vehicles* presents all of the unique features of two-wheeled vehicles, comprehensively covering the main methods, tools and approaches to address the modelling, simulation and control design issues. With contributions from leading researchers, this book also offers a perspective on the future trends in the field, outlining the challenges and the industrial and academic development scenarios. Extensive reference to real-world problems and experimental tests is also included throughout.

Key features:

- The first book to cover all aspects of two-wheeled vehicle dynamics and control
- Collates cutting-edge research from leading international researchers in the field
- Covers motorcycle control – a subject gaining more and more attention both from an academic and an industrial viewpoint
- Covers modelling, simulation and control, areas that are integrated in two-wheeled vehicles, and therefore must be considered together in order to gain an insight into this very specific field of research
- Presents analysis of experimental data and reports on the results obtained on instrumented vehicles.

*Modelling, Simulation and Control of Two-Wheeled Vehicles* is a comprehensive reference for those in academia who are interested in the state of the art of two-wheeled vehicles, and is also a useful source of information for industrial practitioners.

### **From reader reviews:**

#### **Ross Adams:**

Do you have favorite book? For those who have, what is your favorite's book? Publication is very important thing for us to find out everything in the world. Each guide has different aim as well as goal; it means that book has different type. Some people experience enjoy to spend their a chance to read a book. These are reading whatever they get because their hobby is reading a book. How about the person who don't like studying a book? Sometime, man or woman feel need book after they found difficult problem as well as exercise. Well, probably you will need this Modelling, Simulation and Control of Two-Wheeled Vehicles (Automotive Series).

#### **Kimberly Foust:**

Book is to be different for every single grade. Book for children till adult are different content. As we know that book is very important normally. The book Modelling, Simulation and Control of Two-Wheeled Vehicles (Automotive Series) ended up being making you to know about other knowledge and of course you can take more information. It is extremely advantages for you. The reserve Modelling, Simulation and Control of Two-Wheeled Vehicles (Automotive Series) is not only giving you more new information but also to be your friend when you truly feel bored. You can spend your spend time to read your publication. Try to make relationship with all the book Modelling, Simulation and Control of Two-Wheeled Vehicles (Automotive Series). You never feel lose out for everything when you read some books.

#### **Jennifer Jackson:**

This Modelling, Simulation and Control of Two-Wheeled Vehicles (Automotive Series) are reliable for you who want to become a successful person, why. The key reason why of this Modelling, Simulation and Control of Two-Wheeled Vehicles (Automotive Series) can be among the great books you must have is giving you more than just simple examining food but feed an individual with information that possibly will shock your previous knowledge. This book will be handy, you can bring it almost everywhere and whenever your conditions both in e-book and printed ones. Beside that this Modelling, Simulation and Control of Two-Wheeled Vehicles (Automotive Series) forcing you to have an enormous of experience for instance rich vocabulary, giving you tryout of critical thinking that could it useful in your day task. So , let's have it appreciate reading.

#### **Sheila Collins:**

A lot of people always spent their very own free time to vacation or even go to the outside with them household or their friend. Did you know? Many a lot of people spent that they free time just watching TV, or playing video games all day long. If you want to try to find a new activity that's look different you can read a new book. It is really fun for you personally. If you enjoy the book that you read you can spent all day every day to reading a e-book. The book Modelling, Simulation and Control of Two-Wheeled Vehicles

(Automotive Series) it is quite good to read. There are a lot of individuals who recommended this book. We were holding enjoying reading this book. When you did not have enough space to deliver this book you can buy the particular e-book. You can m0ore simply to read this book out of your smart phone. The price is not to fund but this book possesses high quality.
