**Visiones decimonónicas de El Hierro (Tierra Negra) (Spanish Edition)** Carlos Santiago Martín Fernández

Los testimonios de los viajeros, los diccionarios, derroteros u otro material descriptivo sobre la isla de El Hierro han sido un material infrautilizado como objeto de estudio en la investigación social. Especialmente significativo es el nulo empleo que ha tenido aquel que referencia el siglo XIX. Esta documentación es en muchos aspectos definitiva dada la ausencia de fuentes directas, la mayoría desaparecidas definitivamente a finales de la centuria decimonónica, tras el brutal incendio de las Casas Consistoriales, cuando no destruida en depuraciones, pérdida en traslados o «privatizaciones» de coleccionistas. Todas estas circunstancias dificultan el análisis de lo acontecido en El Hierro durante ese siglo y convierten a los relatos y diccionarios en un corpus documental de primera magnitud. En este sentido, este libro presenta la utilidad de rescatar, entre obras de carácter general, aquellas referencias que para el siglo XIX nos expliquen el quehacer social y económico de la menor de las islas del Archipiélago.
