## **Lecture Notes on Nephrology** D.B. Evans, R.G. Henderson

In this volume of the Lecture Notes series, most of the common renal abnormalities are covered, providing a straightforward classification and details of the daily investigation in the field. The whole book provides a good, basic text in nephrology, concentrating on the practical rather than the theoretical aspects. It will be a valuable text for clinical medical students, housemen, and those preparing for MRCP or the primary examinations of FRCS and FFA.
